> **Prefer to load your own documents?** Adding your own documents, including SOPs and procedures, is included at no extra cost. Document onboarding is for customers who would like us to do it for them.

All prices exclude VAT and are correct at 13 November 2026. Examples use Managed Cloud with annual billing and standard clock-in kiosks. Monthly billing is 15% higher.

Subscriptions have a 12-month minimum term. Employee bands are based on active employees in the Portal. Per-employee figures are based on the employee numbers shown and fall as a band fills.

Installation is a starting price; the final price depends on the site. Document onboarding is a one-off fixed fee set by the number of documents: up to 25, 26 to 75, or 76 to 150. More than 150 is quoted. Optional add-ons are priced separately.
